II. Career Advising Plan

The School shall establish a school wide system of career advising. The School shall train staff to advise students on career pathways, including training and advising students to use online tools.

The School's career advising program:

1. will provide career advising to students in grades 6-12 through a combination of formal scheduled meetings with each student, classroom instruction regarding possible career options and career advice provided by teachers;
2. shall provide grade-level examples linking a student's schoolwork to one or more career fields by consulting the Career Connections Learning Strategies and/or any other career advising source the Principal of the School and/or the Board deems appropriate;

3. shall develop multiple academic pathways through high school that will allow a student to earn a high school diploma, including career technical programs and advanced standing programs;
4. will provide the supports necessary for students to transition successfully from high school to their post-secondary destination, including interventions and services necessary for students who need remediation in mathematics and English language arts; and
5. identify and publicize courses that can award students both traditional academic and career technical credit.

III. Documentation of the School's Career Advising Program

The School shall document the career advising provided to each student for review by the student, the student's parent, and future schools that the student may attend. The School shall not otherwise release any documentation of career advising provided to each student absent the written consent of the student's parent or the written consent of the student if the student is at least eighteen years old.

IV. Students At Risk of Dropping Out of High School

The School shall identify students who are at risk of dropping out using one or more local, research-based methods, such as the Ohio Department of Education Early Warning System or any other method deemed appropriate by the School's Principal or his/her designee or by the Board. The School shall consider the input of teachers and guidance counselors in identifying students at risk of dropping out of school.

Any student identified as at risk shall be provided a Student Success Plan. A Student Success Plan shall address the role of career-technical education, competency-based education, and/or experiential learning, and create a pathway to high school graduation. The School shall offer the student's parent an opportunity to assist in developing the plan. If the student's parent does not participate in the development of the plan, the School shall provide the parent (1) a copy of the Student's Success Plan, (2) a statement of the importance of a high school diploma, and (3) a summary of the academic success pathways available to the student to succeed in graduation.

The School shall provide additional interventions and career advising for students who are identified as at risk of dropping out. Career advising shall be aligned with the student's success plan.
